It was declared that plans of the hospital were not in accordance with the report of the committee towards the fund were abandoned upon the report of a committee of the hospital. The committee was in need, and that the individual members of the party contributed liberally. This report was made just before the meeting of the hospital on Tuesday evening. The ministers suggested that there be no particular effort to get a large collection.

This report of the committee was made known to the finance committee, which suggested a relief fund, and that the hospital should be reformed of the attitude toward the proposition which was adopted. Some members of the finance committee did not agree with the suggestion and told them at a conference held Thursday night to consider the public criticism that had been made of the Bob Jones hospital.

"In the light of the fact that this report of the ministers was not generally known," said Rev. W. M. Curtis, business manager of the party. "We ask that the public be told the reason there was no contribution as a party, was because we were advised not to by the committee of ministers, who reported that there was no real need among the families of the victims."

## SOCIAL and PERSONAL

Charming appointments in shopping with Saint Patrick's Day were handsomely carried out at a delightful dance given last evening at the Colonial Inn by members of the younger social set. The dance was one of the most enjoyable affairs held at the Inn for some time. Twenty-two couples attended and danced until midnight. At 11 o'clock a dainty arranged supper was served in which the same appointments prevailed. In the center of the table was a large French basket of green carnations while smaller baskets of similar flowers were sent throughout all the rooms. The candles held unsupplied green candles and all the chandeliers were capped with dainty green shades. Adding charm to the effect were streamers of green maline which adorned all the doorways and windows throughout the first floor. The music was furnished with piano and violin. Irish songs and dances were given for the men were green, satin hats.

## TWO KAISERS.

That self-proclaimed President William, the Conneltsville News, insists that Representative Hopwood voted for Kaiser William when he voted that "one American boy riding on armed belligerent ships has no right to involve the rest of us in the war." The News tells us in bold type of a count who went down to the bottom of the sea while on his way to duty and of American missionaries who were drowned while traveling on such ships.

It is not in evidence, however, that it was necessary for these persons to travel in such ships. There were other and neutral vessels, but it seems that the British liners are the best.

"We will insist," says The News, "that the Kaiser voted with the Kaiser and against the President in his attitude on the McLenore resolution, and we now insist that in supporting this The Herald and The Courier are placing themselves in the same category with such dangerous publications as are at all times liable to suppression."

If this particular Democratic organ by any chance voices Democratic sentiment, it is evident that Republican newspapers will be fighting for their very lives this year when they are fighting for the defeat of the Democratic party. They are told that for supporting a man who supports a Democratic resolution which is unwelcome to the Democratic administration newspapers should be suppressed. Kaiser William has nothing on Kaiser Woodrow.

## BAD ADVICE.

A Councilman-at-Large is not provided in the city code, yet Conneltsville seems to have one of them all without the aid or consent of the people.

We find in the Council proceedings that when a suggestion was made by a Councilman that the annual statement be published in the newspapers, "The City Clerk ridiculed the idea, stating that it would cost too much."

Why is the City Clerk allowed to air his views in Council? He is not a member. He is the clerk. It is his duty to record the proceedings, not to make them.

It might be all right for the City Clerk to give the City Council a bit of advice, occasionally. If the advice is good, but for giving such advice as this the City Clerk ought to be given thirty days.

## A MAKE-SHIFT SYSTEM.

The idea of the Conneltsville School Board that the school bond issue of \$250,000 is necessary for the purpose of providing accommodations for the increased and increasing number of pupils, seems well taken. The temporary expedients resorted to in order to accommodate the new demands upon the educational facilities of the city have been numerous and sometimes ingenious but never permanent or satisfactory. This makeshift system cannot last much longer. It is destined to break down with its own weight. In fact it already demands constant tinkering. It is time these conditions were being met and future demands provided against.

The announcement that Arch and Race streets will be paved this summer will be received with gratification by the citizens generally. These streets have been occupied by trolley tracks and have been largely impassable on that account. Their paving will rescue them from the condition and render their residents long-delayed justice. It will also be in keeping with the spirit of improvement which there is no better place to observe such improvement as from the trolley cars.

Street work has been off on a vacation this week. The court handed out some satisfactory sentences.

The Council has determined to keep track of the Short Horn bonds. By all means. They are short-rated and high-interest. They are due to get around to the paying office in short order. Council is vitally interested in seeing that they do. By all means keep track of the Short Horns.

Connellsville's live equipment is going to be made modern as well as ample. That should be the size of it.

Brewer Fox can't keep out of jail. It is recorded that all Foxes have holes, but it is probable Hugh never dreamed that his particular hole was away out here in Western Pennsylvania.

Later House Leader Underwood frankly acknowledges Democratic delinquency in Congress and urges his Democratic friends to heed matters before it is too late. It has been said "it is never too late to mend," but we are not so sure about that. Some things cannot be mended; the Democratic record for inefficient administration, for example.

Automobiles are going up this year instead of coming down. It isn't the price of the machine that troubles the average investor this year. It is the price of gasoline.

The American army will march at night in its sweep over Mexico. It is better marching at night in that country. The sun is not so hot, and the movement of the army will not be so plain, though as to that it will probably be hard to keep information from traveling ahead of the troops. The army won't need its canteens on the night marches, but it might take a few ovis along.

## Facts Versus Fallacies

FACT is a real state of things. FALLACY is an apparently genuine but really illogical statement or argument.

AN INTERESTING and illuminating article entitled "Alcoholism and Crime" (now in its second edition) has been written by Thomas Speed Mooby, member of American Institute Criminal Law and Criminology and former Federal Attorney of Missouri. Some extracts from this analysis and thoughtful treatise follow. Says Mr. Mooby:

"THE STATEMENT has been freely made that 75 per cent. of the crime of the United States is due to the use of alcoholic drinks. That statement is not true of any State in the American Union, nor is it true of the United States, nor of any foreign nation. Final statistics show that 30 per cent. to 50 per cent. of the population of the various American states are addicted in some degree to the use of intoxicating liquors, but in all my professional reading and official experience I have never learned of any penitentiary containing a total inebriate population of anywhere as 30 per cent."

"FORTY per cent. of the inmates of this penitentiary are victims of intemperance, says a prison warden. He would have said substantially the same thing had he declared that 80 per cent. of his convicts were men of temperate habits and sober lives. But the fact that 80 per cent. of a prison population are victims of intemperance is no argument against temperance, nor is the fact that 40 per cent. of them have used alcoholic drinks an argument against intemperance. It would be as rational to attack the Prohibitionists because a sober man commits a crime as it is to assail the practice of drinking alcoholic beverages when a drunken man commits a crime of similar nature."

"AND WE sometimes forget that millions of men have frequented the drink shops without the slightest taint of criminality having been developed in them or their posterity. For many of these millions of men have been men of abominable lives. If a debauched bank cashier was a drinking man, 'Booze' got him, but if he was a model temperance man, 'It's a pity to see such a good man go wrong!' personally never knew of a great criminal who was a great drunkard solely by reason of heredity, or otherwise, but have known many who were not."

"DR. AUSTIN O'MALLEY, of Philadelphia, in an interesting study of this subject, published in March, 1915, says: 'A man may be an alcoholic because he is primarily a criminal, as well as a criminal because he is an alcoholic; but a drunken criminal, the statistician both are inclined to make alcoholism the cause.'"

"GIVE AN inordinate quantity of alcoholic drink to equal be the same upon two of them. One may become merry, another sad, another hostile, another indifferent, while others may exhibit no effects at all. Psychology may explain these differences, but sociology does not. They cannot be altered by the status of any State. Individual characteristics are the determining factors in each case. Yet cannot get some men drunk enough to induce them to commit a crime, not can you imagine a state of sobriety sufficient to keep some other men out of trouble."

IS IT NOT A FALLACY to say that drink causes crime, when it is a FACT, verified for by an authority on Criminology, that 80 per cent. of the inmates of prisons are not drinkers?

## VIM

### WIDEN THE HORIZON OF YOUR BUSINESS

Vim Delivery Cars are planned and built for but one purpose—that of giving every merchant a scientifically correct delivery unit.

When properly used they will afford any business better service to absent customers, a vastly wider circle of trade expansion, a visible indication of quality merchandising.

The merchants who have experimented with horse-drawn vehicles, heavy motor equipment and converted pleasure cars, were the first to recognize the worth of the Vim, and to use it exclusively. The Vim brought them what thousands of dollars spent in experimenting had not produced. Their conclusion is a good one for YOU to follow.

## LABORER BARELY SAVES HIMSELF FROM A PLUNGE

Slips on Ice While Crossing Trestle Over the Yough River.

## ONLY LOSS IS DINNER PAIL

Sunday Excursions to Chillicothe and Millersburg Will Start After May 20; Camp Cars Stored Here During the Winter, Have Gone Elsewhere.

A gang laborer of the Baltimore & Ohio railroad had a narrow escape from taking a dive into the river while crossing the Baltimore & Ohio bridge at Green Junction a few evenings ago. The man, who is working in a gang at Southfield, got off the train near Fayette, intending to walk across the bridge to his home in the south end of the city. When crossing the icy bridge he slipped. His dinner bucket was lost, but the man caught himself in time to keep from falling also.

**SUNDAY EXCURSIONS.** The Baltimore & Ohio Railroad Company has announced that excursions will be run to Millersburg and Chillicothe every Sunday after May 20. The railroad expects good crowds on these excursions, as both Millersburg and Chillicothe are becoming popular with Pittsburghers. No dates have as yet been announced for excursions between Cumberland and Pittsburgh, but will be given out soon. Atlantic City and Oak Park excursions dates have already been announced.

**CAMP CARS MOVED.** Most of the camp cars that were once stored on the sidings in the yards here have been put back on the road again. At one time there were about 250 camp cars of the Baltimore & Ohio in the east yards. Laborers and carpenter gangs that had been brought here to make the improvements in the yards used the cars. Since these improvements are finished the cars are being taken elsewhere, excepting a few.

**HEADLIGHT FLASHES.** The gang laborers in the Baltimore & Ohio yards are making improvements to the rails. New ties are being put in where some have become loose.

## At the Theatres

**SOISSON THEATRE.**

"THE FRUITS OF DESIRE"—The world's first representation presents the idea of the screen Robert Warwick, today at the Soisson Theatre in the five-reel realistic drama, "The Fruits of Desire." In Mark Trutt, the steel king, Mr. Warwick has one of the greatest parts he has ever undertaken. It is a wonderful play. The pretty little favorite, Myrtle Gonzalez, is the star today in the two-reel Laramie drama, "The Heart of Bonita." It is a romantic story of the love of a mining engineer for a beautiful senorita, and the final triumph of "The Fruits of Desire" is a delightful juvenile drama with Baby Darry in the part. It is a gem. "Love Laughs at the Law" is a Joker comedy with Gail Henry in the leading role. It is a joyful story of a country boy's love for the girl's maid. "In the Heart of a Shout" is a delightful juvenile drama with Baby Darry in the part. It is a gem. "Love Laughs at the Law" is a Joker comedy with Gail Henry in the leading role. It is a joyful story of a country boy's love for the girl's maid. "In the Heart of a Shout" is a delightful juvenile drama with Baby Darry in the part. It is a gem.

"MARK TRUTT'S TREACHERY." "Mark, I'll do just as you say. If you must go—go. But sometimes I wish you'd take me with you back to the hills. Mark, where there are no mills to work the life out of you and there is no black terror to haunt you." "You can't understand."

Mark Trutt was beginning to taste "The Fruits of Desire." He had everything he had fought for, wealth, power and influence. Yet—With a force that must have hurt her and a quick oath, Mark flung Kazia from him.

"Kazia," he exclaimed, hoarsely, "I—I've not been square with you. There—there's another girl—After a little he looked up to see how she had taken the supreme blow. She had crept away like a wounded animal and was looking at him. A dazed smile played about her trembling lips. Her eyes were the color of one who has just seen a great horror.

The above scene is "a big moment" from "Fruits of Desire," featuring Robert Warwick, the international favorite, as Mark Trutt, supported by the beautiful Madeline Traversa as Kazia, and a powerful company. At the Soisson Theatre today.

**WEST END THEATRE.**

"THE LILAC DOMINO."—Andrews Dippel will present the greatest musical success of the season, "The Lilac Domino," at the West End Theatre, Uniontown, Monday night, March 20. This is the rare treat of the musical season and is conceded to be the brightest, briskest, cleanest and most thoroughly enjoyable musical production that has been presented in many seasons. It has fun and dancing of every variety, a fashion display of magnificent, up-to-the-minute costumes and every other feature of regular entertainment, but all subservient to the wonderfully seductive charm of the music and score, sung by artists who would do credit to the most expensive grand opera.

Bradford Kirkbride, a leading light opera singer, Evonne Davis, with the highest and sweetest of high opera voices, Amoretta Farrar, Robert O'Connor, Joseph Carey, Miss Andree Corday of the Opera Comique, Paris, George Curzon, Lillian Broderick and her dancing partner, are some of the principals. The chorus is composed of lovely girls of the speech-blow variety, and the orchestra is in charge of Milan Roden, the world-famous Viennese conductor. The whole production is on an unparalleled scale of magnificence. Seats can be reserved by phone, by calling Beeson's Book Store.

### MORE STRENGTH FOR FEEBLE OLD PEOPLE

If all the old people in Connellsville realized what Vinol will do for them, we would not be able to get enough of it to supply the demand. We quote from a recent letter received from Mrs. A. E. Carson of Kingston, N. Y.:

"She says: 'I am 60 years of age, and had been ailing for a long time with indigestion. I got run-down, was weak, dizzy and could not sleep at night. I consulted two doctors who said I had hardening of the arteries and at my age could not expect to be strong again. My daughter would give me no peace until I tried Vinol, as it had done so much for her. I have taken five bottles and my health and strength have come back, so I am able to do all the housework for my family of four, and I am recommending Vinol to all my friends.'"

The reason Vinol is so beneficial to old people is because it contains the very elements needed to replace declining strength with renewing vigor. It is the medicinal elements of fresh cod livers without oil, petroleum of iron, beef peptone, and a mild tonic wine. Langley Drug Co.—Adv.

### CONFERENCE.

**CONFERENCE.** March 18.—Mrs. John Weaver and daughter, Jean, are visiting Mrs. Weaver's brother, E. J. McDonald of East Pittsburg. County Superintendent of Schools D. W. Seibert of Somerset, was visiting the schools here yesterday.

Stelvin Sellers, the young man who had been very ill following an operation for appendicitis at Mount Hope hospital, is improving nicely at present. Everybody is invited to attend the Sunday School rally held by the 10th district at Listonburg, March 30. Anna Miller has returned from a several weeks' visit with friends in Uniontown.

Mrs. C. G. Masters and daughter, Lydia, went to Beachley to visit over Sunday with Mr. Masters, superintendent of the Beachley Coal Company.

Louis Reynolds, son of Mr. and Mrs. J. T. Reynolds of the West Side, who was threatened with appendicitis, is improving nicely.

No appointment of a new postmaster here has been made as yet. This is causing no little surprise, as the appointment is overdue three months.

Miss Mary Kate Davis, who has been ill for several months, shows some improvement at this time.

The pupils of Mrs. Roy Vanmeter of room 3 gave her a surprise at her home on the West Side. A very enjoyable evening was spent. A dainty lunch, prepared and brought by the visitors, was served.

A great deal of dissatisfaction is arising as to the heating condition of our schools. Owing to lack of power or lack of work on the part of the janitor the rooms are disagreeably cold these mornings.

Rev. A. B. Wagner of Salisbury will preach in the Lutheran Church tomorrow evening. All are cordially invited.

Mrs. Harry Collins of Union, was visiting friends in town yesterday.

## The Standard of Value and Quality

### Approved—by Thousands of Users

As we remarked several weeks ago—"The Paige 'Six 46' is a good car—not merely because we say so—but because its owners have definitely established this goodness in the grueling tests of more than a full year's road work."

If you stop and consider the matter for one minute, you will agree that no automobile can be termed a success until it has been tried and approved by owners.

Factory tests are all right—and very necessary so far as they go.

But a car only proves itself under the strain and stress of day in and day out service.

So, there is one little point that it may be well for you to bear in mind.

This year there are a number of "experimental" six cylinder cars on the market.

These cars, with their new "theories" and new engineering features, may—in time—prove altogether practical in every way.

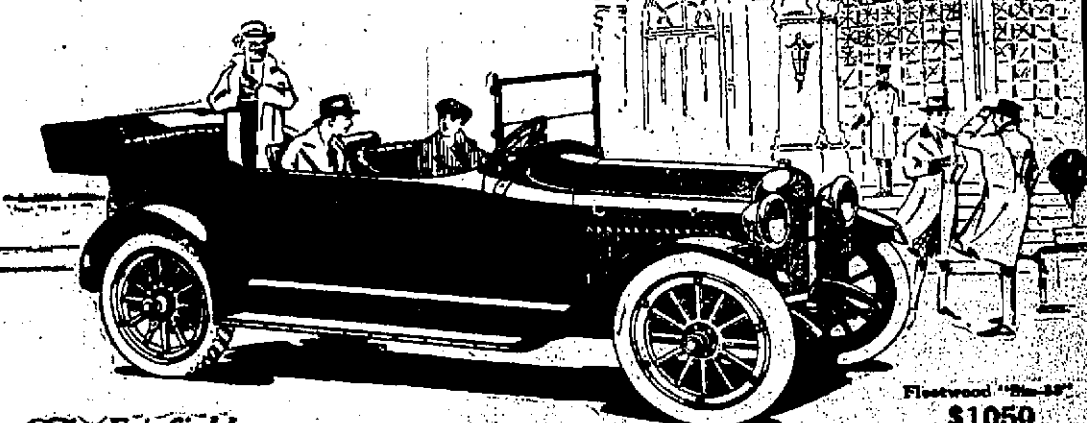

But until that time comes—until these sixes have been thoroughly "tried out" in the hands of users—the prudent man will be inclined to buy the car with a tangible record of accomplishment behind it.

The Paige "Six 46" is an eminently safe automobile investment.
